The period of performance for this position is not to exceed more than one year, may extend to fulfil mission requirements.

MAJOR JOB ACTIVITIES:

Performs scheduled and unscheduled maintenance on wheeled vehicles and ground support equipment such as generators, transformers, switchboards, controllers, circuit breakers, motors, heating units, conduit systems, or other transmission equipment.

Inspects, tests, and operates wheeled and ground support equipment (commercial and Military) to determine equipment serviceability and proper operation.

Services equipment with fuel, oil, water, coolant, hydraulic fluid, refrigerant, and compressed air, disassembles and assembles malfunctioning accessories and components.

Removes, disassembles repairs, cleans, treats for corrosion, assembles, and reinstalls components and accessories.

Disposes of hazardous materials and waste in accordance with all state, local, and federal environmental standards and regulations.

Operates, cleans, inspects, and services wheeled and ground support equipment for maintenance purposes.

Practices good housekeeping, property accountability control, Foreign Object Damage prevention and safety at all times.

Additional responsibilities include working with a variety of repair and test equipment including welders, torches, pressure testers and electrical testers to name a few.

Performs other duties as assigned to meet organizational/operational objectives.

Job duties and responsibilities may change due to contractual requirements.

MINIMUM QUALIFICATIONS:

Education/Certifications:

- EDUCATION/CERTIFICATION:
- High school diploma or equivalent.
- At least three (3) to six (6) years of experience in wheeled and Ground support equipment maintenance or an equivalent.
- Must possess a valid State Driver's License and a U.S. citizen.
- Must be willing to work additional hours when mission requires.
- Applicant must furnish their own serviceable, and Occupational Safety and Health Administration (OSHA) compliant, tools, that are appropriate for their required duties.

FONTAINE CONSULTING

SKILLS and EXPERIENCE:

- Must be proficient in servicing, troubleshooting and repairing military/civilian wheeled and ground support equipment.
- Must be proficient in electrical troubleshooting and repair of ground support equipment such as mobile electric power plants and other self-propelled/non-self-propelled equipment.
- Must be familiar with the use of electronic technical manuals.
- The Ground Support Mechanic receives guidance and direction as necessary from the Supervisor with regards to policies, directives and professional development.
- Must be able to operate electronic devices to input hours worked on timecards and assigned company training.

MATERIAL & EQUIPMENT DIRECTLY USED:

- Extensive use of basic shop equipment, diagnostic equipment, hand tools, power tools, air tools, and lifting devices.
- Steel Toe shoes are required.
- Personal Protective Equipment (PPE) is required in certain areas while work is being conducted.
- Such PPE includes, but is not limited to: Face Mask, head, foot, hand, vision and hearing protective devices.
- Periodic use of computer systems and multi-function devices (MFD).

WORKING ENVIRONMENT:

- Work is generally conducted in a shop environment.
- However, duties may involve the conduct of work in the outdoors area with a potential exposure to extreme climatic condition.
- Work requires stooping, climbing, prolonged standing, prolong sitting and occasional working in cramped and awkward position.
- Frequent exposure to conditions of inclement weather, extreme heat and cold, high/low humidity, blowing sand and dust, and working in confined spaces and at heights.
- A normal work week is 40 hours (5 days a week). Must be willing to work additional hours when mission requires.

PHYSICAL ACTIVITIES:

- Must be able to climb up and down ladders and stairs, as well as bend, twist, and squat for prolonged periods.
- Must be able to pull, push and lift up to 50 pounds.
- Function in conditions of inclement weather, extreme heat and cold, high/low humidity, blowing sand and dust, and working in confined spaces and at heights.
